

ToNI Participant Preparation Checklist

Prior to session:

- Confirm that participant does not have any MRI contraindications by reading through screening form over the phone. Ask the MR Technologist if you require guidance with any answer
- Determine whether participant will require any corrective eye-wear
- Obtain a contact number for the participant and provide them with your number

On the day of scanning session:

- Arrive at ToNI 10 minutes before your participant is scheduled to arrive
- Greet participant
- Obtain written consent and answer questions
- Complete screening form, verbally confirming each answer
- Explain how the MRI session will progress (timing, breaks, etc) along with instructions on how to communicate, use the squeeze ball, and the importance of remaining still
- Provide study specific information (task instructions, practice, etc.)
- Prepare MR compatible glasses, if necessary, and confirm by asking participant to read distant text
- Have participant change clothes if current clothes are not MRI compatible / remove piercings
- Give participant the opportunity to use the washroom right before session
- Bring completed MRI screening form and participant to MR technologist 15 minutes prior to session for final screening
